

Updated November 12, 2009

By Purchasing this license, you are purchasing the right to use my "Insert Product Name" commercially.

This TOU is in reference to small in home businesses. It does not cover those who would use this in a large business setting. If you are looking to use this for that type of use, please contact me for additional licensing fee.

- You may create layouts for others and sell the final flattened image.
- You may use this product for making greeting cards, wrappers, calendars, etc as long as it is for small home based business purposes.

No credit is required, but it is appreciated, if you do credit to "Insert Product Name" designed and © by Heather Manning.

This license allows you to use my "Insert Product Name" as follows:

- You are allowed to use this kit to create papers and/or elements for your digital scrapbook kits.
- You are allowed to alter the product if needed but just know that enlarging is not recommended as you will lose quality and the results will be poor. Scaling them DOWN should have no effect on the resolution.
- You cannot use this product by itself to create an "element pack" by just recoloring and repackaging. To use in an element pack, you must have worked this product into your own design.

For Fonts & Doodles - Do not take the font and make it into PNGs without changing it. That would be the same as selling the font or Doodle. You must make changes, such as use it in word art, create an alpha (that is not structurally the same as the font, add color, textures, make an element, etc.) Do not repackage the font and put it on a font sharing site or redistribute it in way. If you have not received this from a store that Heather Manning sells in, you have received this font illegally. (You can always find my list of stores on my blog - <http://digiscrapping.net/blog>.)

Any distribution, sharing or selling of the kit themselves or of the commercial license is not allowed as these are copyrighted images and would be illegal to do so.

If you have any other questions or comments please contact me at heather1974@gmail.com
